

**Date**

12 October 2020

Location

Zwolle

Function

R&D Technician

R&D Technician

Within the AOC R&D department in Zwolle we are looking for a new colleague. We are strengthening our innovation efforts in customer and manufacturing support and strategic fields like Styrene-free and Carbon Fiber Composites.

As R&D technician you will work in international and multi-disciplinary teams. You perform and / or support application experiments for technical service, innovation projects and/or manufacturing support. We currently have a vacancy.

Our Company

AOC is the leading global supplier of polyester and vinyl ester resins, gelcoats and specialty materials used for the composites industry. With strong capabilities around the world in manufacturing and science, the company delivers unrivaled quality, service and reliability for today, and is creating innovative solutions for tomorrow. Together with its customers, AOC is shaping the future of composites with new technology and applications.

AOC headquarters are based in Collierville (TN, USA) and Schaffhausen (Switzerland). To learn more, visit <https://aocresins.com>.

Position

For this position the following tasks are part of the job description:

- Participate in product/technology development projects in close contact with R&D project leaders, technical service managers and customers
- Provide support to customers and manufacturing
- Maintain and operate specialized laboratory equipment. Keep equipment and other utilities in good conditions
- Setting up and validating new test methods
- Take care of laboratory logistics and housekeeping
- Regular reporting and good project administration
- Comply fully to responsibilities and authorities on safety and quality

We look for

- Chemistry or material lab technician (intermediate vocation (MBO)) with knowledge of composites and/or polymer processing. Some work experience is preferred
- Pro-active attitude and hands-on mentality, affinity with tools and hardware
- Good interpersonal and communication skills

Our Company Culture elements

- Deliver on Performance
- Demonstrate Passion for Customers
- Find New Opportunities
- Speed to Value
- Act as One Team

We offer

- Motivating and challenging position in an international company
- Very competitive salary package based on your profile
- Full time position
